PROJECT NUMBER: 8714

SESSION NUMBER: 3

DATE OF SESSION: 25 NOV 87

DATE OF REPORT: 30 NOV 87

METHODOLOGY: CRV

VIEWER IDENTIFIER: 011

1. (S/NF/SK) MISSION: Describe a past event, occurring in the Spring of a given year, associated with the coordinates 9732/1157.

2. (S/NF/SK) VIEWER TASKING: The viewer was directed to reacquire the "tubelike object" (see session #2) and to describe the area in which it was located and, once again, the scenario in which it was involved.

3. (S/NF/SK) COMMENTS: When 011 was asked why the AOL of "Laser device - Afghanistan" arose, no specific reason was forthcoming. (011 did not recall the past office meeting where feedback regarding just such a project was provided). The combination of certain percepts (the earlier ideas of partisans and Afghanistan, the unusual explosion, etc.) led naturally to this analytical overlay (or is it AOL matching?). In the next session, 011 will be asked to provide a chronological sketch of the activities which compose this "event".

## SESSION SUMMARY

SESSION: 25 NOV 87, 1012-1059 HRS

IN THIS SESSION WE HAVE A SMALL GROUP OF PEOPLE WHO ARE CLIMBING OVER THE CREST OF A HILL. THERE IS SOME SORT OF OBJECT DEVICE LOCATED ON A HILL NEARBY. THE TERRAIN BETWEEN THESE TWO HILLS SEEMS RATHER FLAT AND IS GRASSY WITH LOW BUSHES/SHRUBS. WHILE CROSSING A PARTICULARLY OPEN AREA, SOMETHING HAPPENS TO THIS GROUP OF PEOPLE THAT CREATES FEAR, PANIC, AND CONFUSION. THE SOURCE OF THIS APPEARS TO BE THE OBJECT/DEVICE (see sketch, page 1).

AT THIS POINT IN THE SESSION THERE IS AN "AOL" OF LASER DEVICE AND AFGHANISTAN. THE FOLLOWING INFORMATION MAY BE A PRODUCT OF "AOL DRIVE";

- a. I feel fairly certain that this object/device was not designed or meant to be used as a tactical weapon. Its use as an offensive weapon was discovered quite by accident. I feel that this device was designed to be used as a surveillance tool.
- b. There appears to be a HIND helicopter in the air near this site. I perceive that this helicopter goes down, or crashes in this area.
- c. It is possible that there are two different parts to this object/device one may be the weapon and the other may be a laser device for aiming it.
